Lessons from Thomas:

The evidences of what some refer to as numerology in the Scriptures are present from Genesis to Revelation. While they are interesting and reassuring, we can put too much emphasis on their existence. However, God's plan and his wisdom are far above our thoughts and He shows it to us every day. Numbers of years, days, and hours are there with special purpose. The number six occurs frequently. For example, six days of Creation, but the seventh day belonged to God. Revelation 666 scares and causes worry to too many of us. Man cannot replace God or be God is an adequate interpretation.

Six hours on Friday Christ suffered to pay the debt of sin for all mankind. He arose on the first day of the week defeating death and the grave. Six hours, just as in Creation God's work was done. It Is Finished.
