## Journey with Jesus

In John 4 we find Jesus going on a journey with his disciples. In verse four, it says that he had to go through Samaria. This would not be the direction that the disciples would have taken to get to the destination they were traveling, but when you journey with Jesus you end up going in directions you might not have gone on your own. As they journeyed, they came to a well and Jesus found the Samaritan woman. After a discussion the Samaritan woman left her jug of water and went and told people about Jesus. Wherever Jesus has led you, are you trying to talk to people about Jesus? Why not?
